

**2+2 Articulation Agreement
between
THE UNIVERSITY OF SOUTHERN INDIANA
and
Madisonville Community College**

Statement of Intent: The purpose of this agreement is to facilitate the transfer of graduates of Madisonville Community College (MCC) who earn the Associate of Applied Science (A.A.S) degree in Respiratory Therapy to the Respiratory Therapy Program at the University of Southern Indiana (USI) Degree Completion option.

Principles upon Which Articulation is Based: This agreement, which encompasses the degree granting institutions of the MCC and the University of Southern Indiana, provides a written record of a continuing relationship centered on a mutually beneficial commitment to serving students.

This agreement confirms that all the eligible credit hours earned by students who complete graduation requirements for the Respiratory Therapy Program at MCC will be accepted into and serve to fulfill all lower division requirements for the Respiratory Therapy Degree Completion Program at the University of Southern Indiana. Thus, students who graduate having completed all degree requirements in the Respiratory Therapy Program at MCC will be eligible for full junior level standing in the Respiratory Therapy Degree Completion Program at the University of Southern Indiana.

Students transferring with an A.S.S degree from MCC into the University of Southern Indiana are subject to the same admission and academic policies as other applicants to the University of Southern Indiana. Transfer students are also subject to specific baccalaureate degree program admission requirements. Completion of the A.S.S. degree does not guarantee admission to a program that has a separate application process.

Students who have transferred into the University of Southern Indiana must meet all university and program graduation requirements, including the completion of the university's general education program (CORE 39), minimum residence, grade point average, and upper division course requirements.

Both institutions reserve the right to change their curriculum and agree to inform the other institution's administration and program faculty of such changes as they relate to the conditions of this agreement. Such changes may require an update to the articulation agreement.

All agreements will be reviewed, updated, and re-signed three years from the effective date of the agreements.

Effective Date: 9/1/2018

Review Date: 9/1/2021

On Behalf of the University of Southern Indiana:

Wesley P. [Signature] 9/12/18

TOTAL CREDIT HOURS			TOTAL CREDIT HOURS		120 - 126	

* Some programs may require a minimum grade in specific courses. Please list the minimum grade requirement when applicable.

To graduate with a baccalaureate degree, a student must earn a total of 120 credit hours with at least 39 credit hours at the 300- and 400-level and 30 credit hours taken at USI. Students must have a minimum cumulative USI grade point average of 2.000. Some programs require a higher cumulative grade point average requirement.

Notes:

The program is comprised of 120 credit hours of coursework leading to a Bachelor of Science degree in Respiratory Therapy. A minimum of 30 hours of credit must be earned toward the completion of the baccalaureate degree from USI. In lieu of transfer credit in respiratory therapy coursework, a block of up to 50 credit hours of respiratory therapy electives will be applied toward the BSRT program upon proof of the RRT credential and current licensure. Block credit may include up to 36 hours of upper-level credit and up to 14 hours of lower-level credit. Block credit shall not exceed the number of credit hours of respiratory therapy completed as part of the program that led to the RRT credential and licensure.

It is USI's current policy that students taking online distance education courses do not pay out-of-state tuition other than fees required by the university.

2-Year Academic Plan for Madisonville Community College.

Year 1 - Semester 1 (fall)

REST 451	Management and Leadership for Respiratory Therapy	3	REST Required
REST 452	Introduction to Research in Respiratory	3	REST Required - EEW
HP 356	Ethics and Health Care in a Pluralistic Society	3	WOK Core-Moral and Ethical
