

Embark on an unforgettable journey of discovery at the 2024 Summer Robotics & Science Camp at the University of Southern Indiana. Designed for middle schoolers, this immersive experience blends hands-on learning with exciting challenges, using LEGO robotics to explore the engineering design process. Dive into other science and engineering disciplines in USI labs, and enjoy a session of rock-climbing at USI's state-of-the-art RFWC. Concluding the week-long camp, a celebratory outing will be held in partnership with the YMCA of Southwestern Indiana. Join us for this action-packed adventure that ignites imagination, fosters innovation, and creates lasting memories.

UNIVERSITY OF SOUTHERN INDIANA

Robotics & Science Camp  
Southwest Indiana STEM

## **OPTIONS - Campers may only register for one of the following camps.**

### **BEGINNER ROBOTICS & SCIENCE CAMP**

This camp is designed for students who have very little to no past experience with LEGO Spike Prime robots and drag-and-drop coding.

- Date: July 8 - 12, 2024
- Time: 9:00 a.m. - 3:00 p.m.
- Location: University of Southern Indiana
- Audience: Incoming 6 - 8 graders
- Capacity: 24
- Cost: \$250 (lunch & camp t-shirt included)
- Deadline to Register: June 7, 2024

### **INTERMEDIATE ROBOTICS & SCIENCE CAMP**

This camp is designed for student who already have foundational knowledge of LEGO Spike Prime robots and drag-and-drop coding.

- Date: July 15 - 19, 2024
- Time: 9:00 a.m. - 3:00 p.m.
- Location: University of Southern Indiana
- Audience: Incoming 6 - 8 graders
- Capacity: 24
- Cost: \$250 (lunch & camp t-shirt included)
- Deadline to Register: June 7, 2024
